DAWN OF WISDOM IN SIGHT?

Many BSNL Pensioners' Associations have been busy during the past month, reporting purported file movement from one or other section in DoT, on the DoT's modified pension revision proposals and are claiming settlement, each specifying different timelines. Some have started counting the chickens even before eggs are laid. A few believe that someone calling shots from above will safely secure pension revision without pay revision. They forget that no one is above law and finally will have to abide by the rules. Ministers of communication and their deputies have been time and again stating in the Parliament that "since pension revision is linked with pay revision of serving employees, this has to wait implementation of 3rd PRC in BSNL". They cannot act contrary to what they have stated in the floors of the Parliament.

Pension revision, first recommended by the Fifth Pay commission which was retrospectively and notionally extended to those who retired prior to 1986 too, is a concept introduced to remove the disparity in pension between the past and future pensioners and to ensure that a person retiring prior to the date of implementation of pay revision does not get lower pension than another person of

the same grade and pay retiring after fitment in revised pay scale. Pension revision allows the same fitment weightage as is allowed to the serving employee. Any attempt to allow pension revision without pay revision will lead to another discrepancy wherein the person retiring earlier to date of pay revision will draw more pension than the person retiring later without availing the benefit of pay revision. So far, no one has been able to suggest any foolproof method to delink pension revision from pay revision, without giving room for one or other anomaly/discrepancy.

DoT's proposal submitted to DoP&PW in August 2022, was said to be an attempt to allow pension revision without pay revision, but it only ended up to linking the pension revision to pay revision as per 3rd PRC. According to it, "the benefits of 3rd PRC may be extended to the pre-2017 absorbed pensioners by merging the basic and IDA/DR as on 01.01.2017 with NIL fitment factor, and placement in the revised pay scales of the 3rd PRC." It further proposed that ""For removing anomalies vis-a-vis post-01.01.2017 pensioners, the pension of post 2016 pensioner shall be revised on the notional pay derived after merging the basic with IDA as on 01.01.2017.

Subsequent pay updations by way of promotion, annual increments etc will be calculated on notional basis till his retirement for post-2017 retirees. In this case, PPO shall be prepared not on the basis of last pay drawn but on the basis of notional pay so derived. Hence the anomaly regarding the past pensioners would be getting more pension than the freshly retired pensioners would be addressed. However, this will require amendment of rule 44 of CCS (Pension) Rules, 2021." This is only another way of saying "Pay of employees in service on 01.01.2017 will be revised as per 3rd PRC scales, but they will not get actual benefit of revision. Once the employee retires, he will get the benefit of pension revision on the basis of notionally arrived at last pay drawn." VRS retirees will be part of this category. DoT did not mind that it created another anomalous situation wherein another employee in same grade/pay who retired before 01.01.2017 will be availing the benefit of revised pay on actual basis (as revised pension) during the same period. Thus it may be seen that DoT had proposed only pay revision of serving employees without actual benefit and LINKED pension revision with it. All those who have been claiming all along that 'Pension revision has been DELINKED from pay revision' are either themselves in dark about this fact or are trying to keep their members in dark.

Immediately after accessing a copy of the DoT proposals, AIBSNLREA had to immediately write to the Minister of Communications that NIL fitment factor

is nowhere there in DPE's orders on 3rd pay revision and requested to take corrective measures. Other pensioners' associations too rejected 0% fitment. Now, it is being said that, DoT has completed the exercise of working out the financial implications in respect of 5%, 10% and 15% fitment separately and the MoC will take a call on the fitment percentage to be finalised. Apart from the 'all important information' about file movement being provided by different Pensioners' Associations every other day, no one has any knowledge about what exactly is there in DoT's modified proposals intending to improve upon its earlier proposals.

We believe that DoT will have realised the flaw in its earlier proposal in respect of post-2017 retirees, which does not meet the condition laid by DoP&PW that the proposal "shall not create any anomalous situation." We believe that DoT will have also understood that pension revision simultaneously with pay revision will be the only solution to avoid any "anomalous situation".

AIBSNLREA has been all along pressing for relaxation of affordability clause for BSNL, which is quite justified because of strategic importance of BSNL to the Government in discharging its social obligations. This demand is not only logical, but also achievable without circumventing any law of the land. DPE, in response to a DOT's OM dated 20.03.2018 on the question of relaxation of affordability clause, had then clarified vide its reply dated 18.04.2018, that this would "require approval of Cabinet for

which DOT may examine the issue at its end for necessary action". No one can forget that, subsequently DoT offered pay revision with 5% fitment in the background of 2019 February strike call by BSNL unions and associations, but these unions and associations rejected the offer. DoT would have made this offer only because it was confident of securing relaxation of affordability clause. Now after four years, with BSNL offloading 80000 employees in the name of VRS and with improved revenue position, pay revision with higher fitment benefit is certainly a possibility.

But the poor pensioners have been taken for a ride by various Pensioners' Associations by advancing false explanations, quoting irrelevant orders and demanding delinking of pension revision from BSNL pay revision and some even seeking to link it to pay revision of Central Government

employees based on VII CPC pay scales. With various courts rejecting the demand for pension revision of BSNL retirees on the basis of VII CPC pay scales and the looming possibility of rejection in Delhi High Court too, these associations are making a defensive retreat and have started batting for pension revision as per 3rd PRC pay scales but without pay revision.

Sooner than later wisdom will dawn on them and they will have to retreat from their illogical stand of pension revision without pay revision too, bringing to an end the years-long melodrama enacted by them. We believe that finally DoT will have to go for pay revision and consequent pension revision simultaneously, if it is really serious about 'avoiding the anomalous situation' as stipulated by DoP&PW. And there are already some indications in this direction. ☹

AIBSNLREA has now drawn attention to the fact that "we were shocked to see the status of the appeal and find that the appeal has not been listed for hearing even once after regular admission on 25.02.2011. We have requested that "in view of the above facts and the DoT Order clarifying that if the pensioner is acquitted by a trial court, notwithstanding the appeal filed against the acquittal, the department may take action and issue orders accordingly, the process of granting vigilance clearance, issue of regular retirement orders etc may please be expedited since Shri H S Sutaria, Retd JTO, BSNL, Gujarat Telecom Circle has already crossed the age of 70 years and justice needs to be delivered to him without further delay." **View the letter**

17.04.2023: AIBSNLREA WRITES TO SECRETARY (PENSION), DOP&PW ON GRANT OF ONE NOTIONAL INCREMENT FOR PENSIONARY BENEFITS TO THOSE EMPLOYEES WHOSE INCREMENT FALLS DUE ON THE DAY FOLLOWING SUPERANNUATION:

Referring to the Hon'ble Supreme Court of India judgement in Civil Appeal No.2471 of 2023 has, on 11th April 2023, dismissing the appeal against a decision of Division Bench of High court of Karnataka directing grant of notional increment, where the Supreme Court has observed categorically that "Merely because, the government servant has retired on the very next day, how can he be denied the annual increment which he has earned and/or is entitled to for rendering the service with good conduct and efficiently in the preceding one year", AIBSNLREA has written to the Secretary (Pension), DoP&PW that After this decisive judgement by the Hon'ble Supreme Court of India, there can't be any iota of justification for the Government to continue to deny this benefit to all similarly placed pensioners. DoP&PW which has been assigned with the larger duty of ensuring and safeguarding Pensioners'

Welfare needs to act fast now to ensure issue of a common order for allowing the benefit of one notional increment in similar cases for the purpose of pensionary benefits, as the issue has been dragging on for long with many of the affected pensioners breathing their last during the period and also because the number of such beneficiaries is negligibly limited and the expenditure on this count will be inconsequential.
